

# CHEVELLESTUFF FAMILY OF WEBSITES

## NEWSLETTER

THIRD QUARTER 2017

*From the PC of the ChevelleStuff Family of Websites*

My various Chevelle-related registries, and ChevelleStuff.net itself, and have some new features/updates/fixes. I will track all changes to all websites to keep you informed of additions, fixes, etc. not only to ChevelleStuff.net but new registrants in all of my Chevelle, Nova, Camaro, and Acadian/Beaumont-related registries. A list of all my registries with links can be found at [registries.macswebs.com](http://registries.macswebs.com). Feel free to take a look!

Most registries have available now 3.5 x 2 magnet backed toolbox/display magnets available for registrants. The SS396, LS5, and LS6 registries also have 2.25-inch buttons available for purchase; other registries may follow if there is an interest.

My take for August:

I can understand a Chevelle owner wanting to keep their car's information, and even its existence in some cases, semi-secret and not have it in a national or international registry. But those same owners will take their cars to shows to proudly display where hundreds, or maybe thousands, of people see and photograph them and even though some will cover the VIN (often with their show card which has their name and city/state on it), they tend to forget about things like their license plate which is just as easy to track if someone has evil in their heart. The same person that hedges at registering their Chevelle will take and post photos all over social media sites that'll typically give away their identity and hometown. These are things none of my registries do; all data are kept in a

local database and is never shared or published. Seems one is out of sync with the other but who are we to judge? Owner's wishes need to be respected, whatever the justification.

My take for September:

The [30<sup>th</sup> Annual Midwest Chevelle Regional](#) car show was hosted this year by the Heartland Chevelle Club in the Omaha, NE. area and what a great show it was. Almost 200 Chevelles and Monte Carlos descended on the Marriott Courtyard in La Vista, NE. for the show. This was the first year the Heartland Chevelle Club has hosted a Midwest Chevelle Regional car show since joining the MCR fold a couple of years ago in Springfield, MO.

Next year's 31<sup>st</sup> Annual Midwest Chevelle Regional car show will be hosted by the Wichita Area Chevelle Owners club in Wichita, KS. The show will be kind of extended to a 3 day event, September 6, 7, and 8, 2018. Tentative 3-day schedule is shown here for planning purposes.

Schedule of Events (subject to change)		
Thursday	Early Pre-Registered Check in Available	6 – 8 pm
	<i>Ice Breaker</i> - pizza from AJ's bar & grill (included with car show registration)	6 – 8 pm
Friday	Registration inside The Alley	9 am – 5 pm
